## UPDATE ON PROGRESS TO GREENLIGHT

We recently emailed you an update of what we have been doing so far in the study.

Once we receive final sponsor approval for the trial we will be able to issue the greenlight to sites that have all local approvals and other essential documents in place.

### WHAT YOU NEED FROM US

- Updated protocol and associated documents
- We will be sending you all of the items you will require for running the study (including updated trial manuals, investigator site files, worksheet folders, thank you cards, thermometers, study cards, eligibility stickers).
- We will be following up with you to get signatures on the invitation packs and deliver these to you.
- Some of you have sent through queries on your site agreements and we hope to come back to you shortly.
- Arrange shipment of Equipment and Starter packs for remaining sites

### WHAT WE NEED FROM YOU

- Protocol V3.0 Investigator Agreements & study training logs
- Confirm all of the contact details (names and telephone numbers) are correct for the invitation packs we will print for you.
- Ensure you have completed all of the required training (SIV, PARI equipment and MACRO EDC training sessions)
- Complete your DRA competency documents (for those involved in the DRA).
- Follow up with your local R&D for any outstanding approvals

*We will shortly start up monthly CLEAR PI Teleconferences with all sites. This is a great opportunity to ask any questions you may have to the Trial Team. We will be in touch with you shortly to review the most suitable timeslot for the call.*
